

LARGE BODY LINE

70 – 80YDS

Hippo Grapple Body

Technical Data Sheet

Storm Cleanup Class

PRODUCT OVERVIEW

The Hippo Manufacturing Storm Clean-Up Line of Grapple Bodies and Trailers is engineered to deliver maximum capacity, long-term durability, and cost efficiency. Each unit is constructed from AR 450/500 sheet and plate steel, ensuring exceptional strength to withstand demanding emergency cleanup operations and resist corrosion for extended service life

Key enhancements include ¼" tube rails, a pitched balcony for improved drainage, and a standard threaded floor drain plug to eliminate standing water—just a few of the premium features you'll find when you choose a large body from Hippo Manufacturing.

Heavy Duty Configurations

AR450 / 500 Sheet

HD Rails and Tubes

Reinforced Bottom Shelf

Custom Options Available

Who We Are

Based in Fort Pierce, Florida, Hippo Manufacturing takes pride in building premium grapple bodies from American-made steel. Our mission is simple: to craft the toughest, most reliable bodies in the country while raising the standard in an industry ready for innovation.

Driven by strong relationships, cutting-edge technology, and creative engineering, we're redefining what's possible in steel body manufacturing — one build at a time.
