

MEDIUM BODY LINE

50+ YDS

Hippo Grapple Body

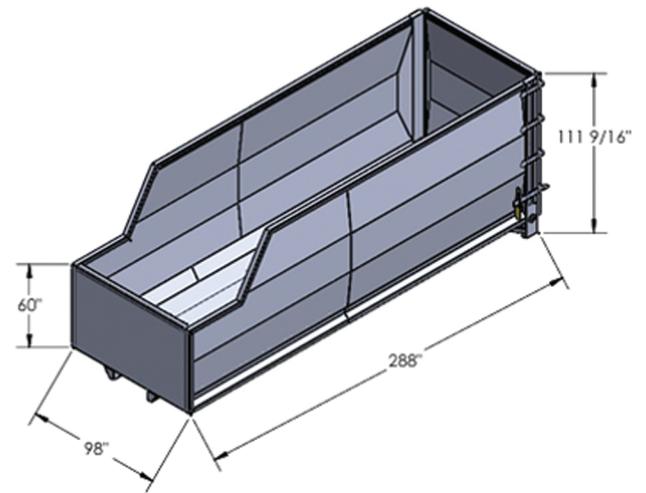

Technical Data Sheet

Front Mount /Dump Body 50+

PRODUCT OVERVIEW

Hippo Manufacturing Medium-Sized Body Line
Designed for larger day-to-day applications where a municipal-sized body just isn't enough, the Hippo Medium-Sized Body Line delivers the perfect balance of capacity and maneuverability. Requiring only 24 feet of chassis frame, this line offers increased volume and performance while still allowing easy access to most work sites.

Built to last, every HD model features AR sheet construction and heavy-duty rails for exceptional durability and low maintenance. Practical design elements like a pitched balcony and washout doors simplify cleaning and minimize standing water. Each frame comes prepped and ready for wiring, along with the proven reliability and craftsmanship you can expect from Hippo Manufacturing.

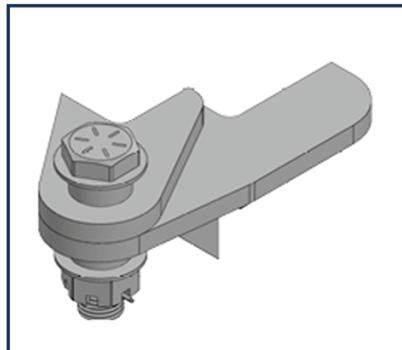

Heavy Duty Configurations

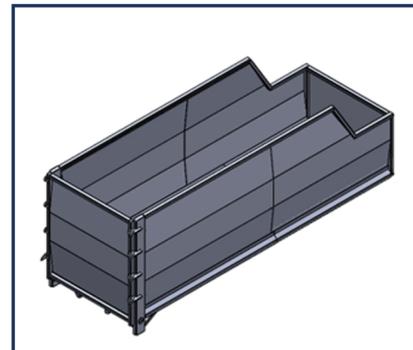

AR 450 / 500 sheet

Heavy Duty Latches and Hinges

Who We Are

Based in Fort Pierce, Florida, Hippo Manufacturing takes pride in building premium grapple bodies from American-made steel. Our mission is simple: to craft the toughest, most reliable bodies in the country while raising the standard in an industry ready for innovation.

Driven by strong relationships, cutting-edge technology, and creative engineering, we're redefining what's possible in steel body manufacturing — one build at a time.
